## Summary

Experienced Software Engineer specializing in artificial intelligence, machine learning, and robotics. Proficient in C++, Python, and Java, with a knack for developing sentient AI systems capable of complex decision-making. Passionate about ethical AI development and eager to contribute to groundbreaking projects in dynamic environments.

## Education

|   |      |
|---|------|
| <b>PhD in Astrophysics</b>                              | 2026 |
| <i>University of Bristol, Bristol, England</i>          |      |
| <b>Master of Science in Data Intesive Astrophysics</b>  | 2021 |
| <i>Cardiff University, Cardiff, Wales</i>               |      |
| <b>Bachelor of Science in Physics with Astrophysics</b> | 2020 |
| <i>University of Bristol, Bristol, England</i>          |      |

## Experience

|  |            |
|--|------------|
| <b>Intern</b>  | 2024-09-01 |
| <i>Aleph Insights, London, England</i>   |            |
| <ul style="list-style-type: none"><li>Worked on building a internal LLM client tool. This interacted with any LLM API, stored all data locally and allowed for attaching relevant documents from local the network.</li></ul>  |            |
| <b>Postgraduate Teaching Assistant</b>   | 2022-06-01 |
| <i>University of Bristol, Bristol, England</i>   |            |
| <ul style="list-style-type: none"><li>Lab demonstration, assisting 2nd year undergraduates in completing their research projects. This required a detailed working knowledge of a number of physics experiements projects. I then accesed them through conducting interviews and marking formal reports.</li></ul> |            |
